

Name: _____

Show work needed to justify your answer.

Date: _____

HW # 26a: Algebra 1 - Standard 15 - Absolute Value Functions

5 points

- a. Describe each shift of the function from the parent function $y = |x|$
- b. Sketch the parent function on the graph
- c. Use your descriptions to plot $h(x)$ in relation to the parent function

25. $g(x) = |x + 2| + 3$

30. $h(x) = -2|x - 3| + 2$
